SUMMARY

Detail-oriented React Developer with a strong foundation in software engineering and hands-on experience in developing responsive web and mobile applications. Proficient in React.js, JavaScript, HTML, CSS, and React Native, with a solid understanding of frontend architecture, state management, and REST API integration. Skilled in using version control systems like Git and building modern UIs that are clean, performant, and user-focused. Also experienced with SQL/NoSQL databases, and currently expanding into full-stack development. Looking for frontend or full-stack roles where I can apply my technical strengths and grow in a collaborative environment.

EXPERIENCE

Data Analyst Intern Systems Ltd

June 2025 - July 2025, Islamabad

- Building scalable data warehouses and transforming data into insights using Power BI, leveraging Power Query for data shaping and DAX for advanced analytics.
- Streamlined ETL workflows by integrating automated data validation procedures, ensuring accurate reporting and timely availability of business intelligence dashboards to stakeholders.
- Consolidated diverse data sources into unified models, applying SQL queries and automation scripts to boost data integrity and streamline business analysis processes for enterprise clients.

EDUCATION

Bachelors of Science in Software Engineering

National University of Modern Languages • Islamabad, Pakistan • 2027 • 3.61

CERTIFICATIONS

React Native Specialization Meta • 2025

- - Gained hands-on experience building cross-platform mobile apps using React Native.
- - Learned navigation, state management (Context API), styling, and API integration.
- - Built and deployed working mobile applications for Android and iOS.

SKILLS

- Programming Languages: JavaScript, C++, Java
- Web Development: HTML5, CSS, React
